

Coal engagement update

Thank you for signing up to receive updates.

Public engagement on a new, modern coal policy for Alberta begins today. An initial survey is now available for you to provide input on how you think the province should manage coal development in the province, as well as input on future engagement. The survey is open until April 19.

The results of the survey will be used to help inform future public engagement activities. An independent Coal Policy Committee has been appointed to lead a wide-ranging and comprehensive public engagement.
